

MEMORANDUM

INTERMOUNTAIN POWER SERVICE CORPORATION

TO: Doug Ingraham
FROM: Dennis Killian
DATE: May 10, 1991
SUBJECT: Authorization to Purchase Boiler Combustion
Testing Evaluation
FILE: 01.12.02, 14.9010

Please proceed with the attached requisition to have an on-site burner and combustion testing evaluation conducted. We want to use RJM Corporation of Ridgefield, CT to conduct this testing evaluation. Please reference the attached purchase requisition and letter from RJM for more detail. Also attached is some RJM literature on testing services.

We would like to schedule this activity the week of June 3, 1991. Attached are budget sheets that include funds for burner testing activities that we would like to utilize for this purpose.

RJM Corporation will make an on-site diagnostic review of our on-going operational problems and make recommendations for a testing program, outlining costs and requirements of each separate phase. This on-site two day evaluation is for a **fixed fee of \$3500, plus expenses.**

Please contact Aaron Nissen at Extension 6482 if you have any questions concerning this matter.
